Description

CCTV colour compact bullet style camera with 4 in 1 technology – supports HD-CVI, HD-TVI, AHD of up to 1.3 Mega Pixel 720p HD resolution and analogue 960H (CVBS). The camera is equipped with infrared night vision and suitable for outdoor and indoor use.

The camera provides high definition video via coaxial cable or UTP and also a standard analogue CVBS video signal. The CMOS high-performance video sensor provides a HD 720p quality image (all standards supported: HD-CVI, HD-TVI, AHD), as well as a standard 960H analogue CVBS signal in 1000TVL grade. That means the camera operates with modern high definition systems as well as standard analogue CCTV installations.

Varifocal optical lens with 2.8 to 12mm focal length with a diagonal field of view of 94° to 25°.

30 SMD infrared LEDs are activated automatically in low light conditions, providing a sharp image at 0lux (total darkness) to a maximum distance of 40m (131ft).

The new generation of energy saving SMD infrared LEDs makes the night vision of the camera stronger and brighter than standard LEDs.

The integrated automatic IR CUT filter provides a sharp image with realistic colours during daytime operation.

The following image improvement features are integrated:

- AE Auto Exposure
- 2D-NR Noise Reduction without loss of focus
- AWB Automatic White Balance

Video connection via standard BNC connector, switchable between HD-CVI, HD-TVI, AHD and analogue CVBS (PAL), 960H (1000TVL grade).

Solid housing made of aluminium, weatherproof according to IP66 specifications, can be used outdoors and indoors.

The integrated wall bracket allows easy wall installation. Bracket is included.
